

PSB

Thin Coat Plaster Stop Bead

Plastering and rendering made simple.

- *Products simply fixed with plaster dabs or nails.*
- *Edges, arrises, corners, joints and abutments all easier to form.*
- *Designed to minimise potential chipping, cracking and associated damage.*

Thin coat plaster stop bead (30mm Perforated Wing)

- *Provides a neat finished thin coat plaster edge wherever required.*
- *Numerous applications internally including those at openings, abutment of walls and for ceiling finishes.*

Installation

Edge beads may be fixed by dabs or by masonry nails of similar material.

Plasterboard Edge Bead: Fix the perforated wing flush to the board face before applying final skim coat. The bead may be reversed if required by fixing the wing to the board's inner surface.
